TTY-Digital Deployment, CC Docket No. 94-102**

Dear Ms. Dortch:

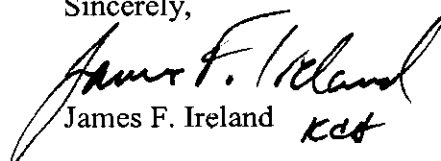

On behalf of Alpine PCS, Inc. ("Alpine") and RFB Cellular, Inc. ("RFB"), please be advised that Alpine and RFB have now implemented TTY access to their respective digital wireless systems and are now in compliance with the Commission's TTY requirements.

The Commission initially established December 31, 2001, as the deadline for carriers operating digital wireless systems to have obtained all software upgrades and equipment necessary to transmit 911 calls from TTY devices. In the *Fourth Report and Order* in the Enhanced 911 (E-911) proceeding, the Commission established June 30, 2002, as the deadline by which digital wireless service providers must be capable of transmitting 911 calls using TTY devices.

On June 26, 2002, Alpine and RFB filed a joint request for a limited waiver from the deadline, requesting a one-year extension of the deadline to comply with the TTY requirements.¹ The time period for the one-year extension having expired, Alpine and RFB hereby advise the Commission of their compliance with the current TTY obligations.

Please contact the undersigned if you require any additional information.

Sincerely,

James F. Ireland *Kdt*
